BENCHMARK ANALYSIS

The Performance Framework, which is part of the oversight plan included in the Charter Agreement for each school, outlines 10 Performance Framework benchmarks in three key areas of charter school performance:

- Educational Success
- Organizational Soundness
- Faithfulness to Charter and Law

Observational findings from the review of the renewal application, supporting data, and the site visit will be presented in alignment with the [Performance Framework](#) Benchmarks and Indicators according to the rating scale below, although not all indicators will necessarily be assessed on every site visit. A brief summary of the school's strengths will precede the benchmark analysis. Each benchmark will be rated; however, the report narrative will highlight those indicators not fully met by the school.

Level	Description
Exceeds	The school meets the performance benchmark; potential exemplar in this area.
Meets	The school generally meets the performance benchmark; few concerns are noted.
Approaches	The school does not meet the performance benchmark; a number of concerns are noted.
Falls Far Below	The school falls far below the performance benchmark; significant concerns are noted.

For the site visit conducted from October 10-11, 2017 at Unity Prep, see the following Performance Framework benchmark scores and discussion.

Benchmark 1: Student Performance

The school has met or exceeded achievement indicators for academic trends toward proficiency, proficiency and high school graduation. At all grade levels and all assessments, scoring proficiently means achieving a performance level of 3 or higher (high school Regents and Common Core Regents exam score of 65 or higher).

Benchmark 2: Teaching and Learning

School leaders have systems in place designed to cultivate shared accountability and high expectations and that lead to students'

Curricula at Unity Prep are reviewed and evaluated by principals at the start of each planning year, in partnership with departmental chairpersons. To ensure horizontal and vertical alignment, assessments and scope-of-sequences outline skills and content within and across grade levels. During Unity’s summer staff development institute, teachers—under the supervision of the principals and departmental chairpersons of the middle school and high school—use scope-and-sequences to create curriculum maps and thematic units of study.

Teachers create, revise, and receive feedback on lesson plans on a weekly basis. As part of this process, teachers draft lesson plans for the upcoming week in collaboration with grade-level content teams, and then submit the plans to their designated instructional coach on an agreed-upon weekly schedule. Coaches then review, provide written feedback, and return the drafts to teachers, and teachers make final revisions during shared preparation periods before delivering each lesson.

Academic data is shared with parents throughout the school year in various forms. Students' grades are shared with parents weekly, either through *Jupiter* or through "Scholarship & Citizenship Reports," which are distributed as hard copies. NYS assessment results are shared at curriculum night, and individual scores are provided to parents via mail and during parent-teacher conferences.

Social-Emotional Supports

Unity Prep has four full-time counselors on staff to support students' social-emotional needs. School leaders collect and use data to track the social-emotional needs of students using the system of PBIS, core value shout-outs, Weekly Scholarship & Citizen (S&C) Reports, Advisory and YES!. Small-group advisory is also offered to students who benefit from additional support.

Teachers track data around students' social-emotional health and behavior through *Jupiter*, and this data is used to identify students in need of support. A Google form is also ulwhreisorr
