BCSC is in year 20 of operation and serves students in K - Grade 8. During its current charter term, the school is rated in the following manner: meeting nine benchmarks and approaching one benchmark. A summary of those ratings is provided below.

x Summary of Areas of Growth and Strengths:

BCSC has consistently shown a dedicated effort to address the distinct needs of its students, with a particular focus on those identified as Students with Disabilities (SWD), English language learner(s) (ELL), and students with mental health challenges. The school remains steadfast in its commitment to an upward trajectory of growth. Noteworthy is the resilience demonstrated by teachers, students, and the school leadership team in navigating these challenges. This resilience has not only contributed to maintaining community support and buy-in but has also led to the school's expansion in the 2022-2023 academic year, now offering middle school grades as part of its continued efforts to provide quality education.

x Summary of Challenges:

BCSC is working diligently to refine areas that have been challenging. For example, the school has noted that students need additional supports in becoming critical thinkers. Professional Learning Communities (PLC) workshops have been curated to provide help to teachers in getting students where they need to be. BCSC has struggled with enrolling students classified as SWD in the school. Correspondingly, it has adopted and engaged numerous recruitment strategies to ensure the number of SWD increases to be on par with other schools in the district. More information regarding these recruitment and enrollment strategies can be found in Benchmark 9 of this report.

quizzes assists them in determining if the lesson plans were effective. "By using the weekly quizzes, we identify what we need to change, reteach and if we are ready to move on." School leader focus group members expressed that it is important to review their programs to ensure that they are meeting the students' needs while also monitoring the program's overall effectiveness.

Indicator d: As noted in the renewal application, the school uses multiple measures to assess student progress toward NYSLS. Teacher focus group members explained how they use a spreadsheet to analyze unit test data to better determine the standards they need to reteach.

4. Element:

x Indicator a: As stated in the renewal application, Response to Intervention (RTI) is BCSC's most prevalent process used to identify SWD and ELL. School leadership focus group members stated that students entering Grade 6 have had interrupted instruction due to the COVID-19 pandemic and are more than two years behind academically. Those students along with SWD and ELL have been placed in a language lab to focus on their use of social language and their 4.3 (e) 4.9 (o) -9.

Benchmark 3: Culture, Climate, and Student and Family Engagement

The school has systems in place to support students' social and emotional health and to provide for a positive, safe and respectful learning environment that prepares all students for college and career. Families, community members and school staff work together to share in the responsibility for student academic progress and social-emotional growth and well-being. Families and students are satisfied with the school's academics and the overall leadership and management of the school.

2.		

- x Indicator e: Classroom observations conducted by the CSO team indicate that the school adheres to best practices around student engagement during instruction. Classroom observations indicated that students were largely on task with instructional directives from teachers. Classroom observations also highlighted, that there is significant use of blended learning stations, parallel teaching and co-teaching. Student support focus group members stated that those practices are in place to ensure that all students receive feedback and support where needed, thus minimizing learning disruptions. Learning resources such as word walls and anchor charts were posted on walls in observed classrooms.

tracked, and student support is provided. According to the renewal application, teachers regularly complete surveys that were created by the counseling team. This allows them to collect information about what they perceived to be the most prevalent social emotional needs observed during classroom visits. Based on the results, the counselors create responsive lessons that are taught during community meetings or during SEL blocks on Wednesdays.

- Indicator c: During their focus groups, teachers stated that at the end of their lessons (including SEL), and to assess student learning, they have all students complete an exit ticket. Teachers also stated that they regularly meet with counselors to help monitor students and provide feedback from their classroom observations and exit ticket data.
