How is GRE Classified into 3012-d Growth Rating for Principals of Grades 9-12 in 2021-22?

Another growth measure for principals of grades 9-12 is the Comparative Growth in Regents Exams Passed (GRE) metric. Because a major graduation requirement is for students to pass the Regents Exams (more for advanced Regents diplomas), this measure compares how much progress a school's students are making from one year to the next toward passing up to eight Regents Exams (the five required Regents Exams plus up to three more). A principal's score on this measure reflects whether his or her students exceeded the average change in number of Regents Exams passed each year by similar students statewide.
