

Commissioner's Regulation

§ 136.7 Self-administration of certain medications by students

(a) Definitions. As used in this section:

(1) means a solution of a drug or a combination of drugs administered to the respiratory passages via inhalation for immediate alleviation of respiratory distress in a school or school day, including a partial day, that students are in attendance at school or at a facility maintained by a board of cooperative educational services for instructional purposes.

(12) means in or within any building, structure, athletic playing field,

playground, parking lot, or land contained within the real property boundary line of a public elementary or secondary school or a facility maintained by a board of cooperative educational services for instructional purposes, or in or on a school bus, as defined in Vehicle and Traffic

system, glucagon, blood glucose meter and related supplies to treat such student's diabetes; or require that such licensed health professionals be available at all times in a school building for the purpose of taking custody of insulin, insulin delivery system, glucagon, blood glucose meter and related supplies to treat such student's diabetes.

(ii) Such insulin, insulin delivery system, glucagon, blood glucose meter and related supplies to treat such student's diabetes provided by the parent or person in parental relation, shall be made available to the student as needed in accordance with school policy and the orders prescribed by the duly authorized health care provider.

(4) Students with diabetes may also carry food, oral glucose, or other similar substances necessary to treat hypoglycemia pursuant to district policy, provided such district policy shall not unreasonably interfere with a student's ability to treat hypoglycemia.

(5) Each student with diabetes who is permitted under this section to self-administer their

professional as described in subdivision (c) of this section. Components of such training shall include, but not be limited to:

- (i) Identification of the specific allergen(s) of the student(s), including review of each student's emergency action plan, if available;
